In this video, we'll walk you through finding and using bonus bets.

Bonus Bets are a form of site credit which can be used to place certain qualifying wagers on DraftKings, up to the Bonus Bet's stated value.
You can earn bonus bets through participating in DraftKings promotions.

Depending on the promotion, you may be required to place an initial wager with funds from your cash balance or make a deposit.

Once you've earned a bonus bet, you'll see the bonus bets available by selecting **Rewards** then **My Rewards.** Under **Available Rewards** you'll see any current bonus bets available.

Read the details for the bonus bet terms, and the expiration date and time.
When ready to use your bonus bet, select **Bet Now.**

You will be redirected to the Lobby to place a qualifying bet.

Bonus bets also appear on your bet slip. If you wish to apply a Bonus Bet, choose **"Apply Bonus",** and then the Bonus Bet available.
Notice the bet amount will populate.

Alternatively, you can select the **My Rewards icon** at the top right to view any available bonus bets.
The options available under My Rewards will change based on selections in your bet slip and the promotions you have previously opted in to.

The apply button will appear for bonus bets that can be applied to one selection in your current bet slip.
If the current wagers on your best slip are not eligible for a specific promotion or bonus bet, you can select **Bet Now** to find eligible wagers.

If your bet slip has multiple bets that can be used with a bonus bet, you will see the **"Available for more than one of your bets"** badge and can choose which selection to apply your bonus bet to from the bet slip.

Finally, if you decide not to use a bonus bet you can select **Unapply**.

Rewards available will be listed in order of expiration date. Those listed at the top will expire first. Expiration dates turn red within 24 hours of expiration.

Select **Apply** to choose an eligible bonus bet.
Only one Bonus Bet may be used per single selection or combination including parlays, SGPs, and SGPx.
Bonus Bet must be selected and applied BEFORE you place your bet.

Always review your bet slip prior to submitting any bet. This helps ensure the reward you wish to use is selected and the bet you wish to place is correct.
Select, **"Place Bonus Bet".**

After placing your bet, you will see that a bonus bet was applied on your bet receipt.
You can also review your bet from **My Bets.**

Bonus Bets can't be combined with other reward offerings, split into multiple transactions or used on teasers.

If your Bonus Bet is voided, the reward will be returned to your account following settlement.
