

## How to use Casino Deposit Bonuses

[Percussion music playing]

Get in on the action with Casino Deposit Bonuses to earn Casino Bonus Funds!

Read the requirements, opt in to play, and track your progress. No longer want to play? You can forfeit.

Bonuses are offered in the Carousel across DraftKings products but can only be used within the Casino games, not Sportsbook wagers or other products.

You can also find available bonuses from **Rewards**, then **Promos**.

When you find an offer, read the terms and conditions to understand any wager, playthrough requirements, or other requirements before opting-in.

And pay attention to the promotional period to know when the offer expires.

Playthrough requirements refer to the number of times the funds need to be wagered, or in certain cases, the amount that needs to be played to earn Casino Bonus Funds.

For example, if you're playing slots with this type of deposit bonus you could deposit \$10 and then receive a \$10 match.

Your \$10 match will have a playthrough requirement. For this offer it's 10x. This means you must play through the \$10 ten times or play through \$100 before you complete the promotion.

Other Casino bonuses may have different requirements so it's important to read the terms.

If you're interested in the offer and have reviewed the terms, select **opt in**.

Casino Bonus Funds are not withdrawable until you reach the play-through amount completing the offer.

Casino Bonus Funds are lost if the offer expires or you choose to forfeit the bonus.

Track your progress as you play in the Reward Center.

Tap **Rewards**.

From here, view the amount in locked funds and your progress in meeting the playthrough requirement.

As you play, remember some games, like slots, have higher contribution rates.

This means you contribute more to meet the play-through requirement with slots or Rocket than some others.

Learn more about play-through requirements and contribution rates by visiting our Help Center.

If you'd rather stop using the bonus and unlock any remaining deposited funds, you can choose to forfeit your bonus.

Read the forfeiture information as it outlines the amounts you'll lose in bonus funds and winnings and how much of your original deposit you'll get back.

In this example, the player has \$5 in bonus funds and the player wagered \$1 of the original deposit.

By forfeiting, the player would lose the \$5 in bonus funds and associated winnings and the \$1 of played deposited funds.

They'd receive back \$4 of the original \$5 deposit.

And any winnings earned from the \$1 wager.

Now, find a Casino promotion and get in on the action!
