

## Getting started with Casino Royal Quests (iOS)

[percussion music playing]

Welcome to Casino Quests! Quests are comprised of daily tasks you can complete to earn daily and quest level rewards.

Quests run each week starting on Mondays and require you to opt in each week to play.

When a Casino Quest is available, you'll be notified in the Bonuses & More widget.

Tap 'Start' to access the Quest menu and opt in to begin your journey.

Each day of your Quest, a Daily Task will be assigned to you. Completing these tasks within the 24-hour time limit will earn you rewards like Stars and other prizes.

The Daily Task card for the current day will tell you:

What your task is.

How much time you have left to complete it.

How much progress you've made.

And the rewards for the task.

Complete all Daily Tasks over 7-days to earn the Quest level reward. Completing a full Quest earns you the most rewards.

Once you complete a task, you'll earn a star and possibly additional rewards. Be sure to claim your rewards within 48 hours to not lose any prizes you've won.

View upcoming tasks to prepare ahead of each milestone.

Check your progress on previous tasks and rewards anytime.

Each Star gets you closer to unlocking Quest Rewards.

Diamonds represent milestones within your Quest.

Track your progress by viewing the stars and color coded diamonds.

White and golden outlined diamonds indicate milestones you're working towards. Green indicates completed milestones. Solid gold represents the Quest level milestone.

You'll be notified of any unclaimed rewards by a red notification in the Bonuses & More widget and the Quest menu.

Claim your rewards immediately to not lose out on task or Quest level rewards! You'll have 48 hours to claim your rewards before they expire.

Get started now! Complete tasks, collect Stars, and unlock rewards with Casino Quests!
